General Installation Guidelines
with Top Mount Refrigerator

*When installing top mount refrigerator adjacent to wall, cabinet or other appliance that extends beyond front edge of unit, 20” minimum clearance recommended to allow for optimum 140°/door swing, providing complete crisper access and removal. (Absolute 3” minimum clearance will ONLY allow for 90° door swing which will provide limited crisper access with restricted removal.)

When installing appliance with sliding drawer or drop-down door directly across from obstructions, provide sufficient clearance for drawer extension or door swing.

When installing appliance with sliding drawer or drop-down door adjacent to wall, cabinet, or other obstruction that extends beyond front edge of appliance, allow 2” minimum clearance between drawer or door and obstruction.
