Home Comfort
FFRS1022R1

Signature Features

Effortless™ Temperature Control
Our air conditioners maintain the preset room temperature, so you will remain comfortable at all times.

Programmable 24-Hour On/Off Timer
With the 24-Hour On/Off Timer, you can ensure your home will be cool and comfortable when you want it to be without having to worry about running up your utility bills. The built-in timer allows you to preset the unit to turn on and off in half-hour increments.

Energy Saver Mode
Reduce your utility bills in this mode. It cools similarly to central air, with the unit turning on and off at different intervals to ensure the room temperature stays at the set temperature.

Multi-Speed Fan
Features three different fan speeds, for more cooling flexibility.

More Easy-To-Use Features

Sleep Mode
With Sleep Mode, the temperature gradually increases a few degrees over the evening, saving energy and creating a comfortable environment during the evening hours.

Remote Control
Offers you the flexibility to control the temperature and fan speed from anywhere in the room.

Effortless™ Clean Filter
Our antibacterial filter reduces bacteria, room odors and other airborne particles for a healthier, more comfortable environment.

SpaceWise® Adjustable Side Panels
With the Adjustable Side Panels, the side panels will extend to best fit your window.

Power Cord
Comes with an extra long three-prong cord — makes extension cords unnecessary.

Effortless™ Restart
Automatically resumes operating at its previous settings when power is restored to your unit.

Clean Filter Alert
Alert notifies you when your filter needs to be cleaned so you don’t have to keep track of it yourself.

Ready-Select® Controls
Easily select options with the touch of a button.
