Freestanding Range
FGGF3685TS

Signature Features

True Convection
Single convection fan circulates hot air throughout the oven for faster and more even multi-rack baking.

Quick Preheat
Preheat in just a few minutes.¹

SpaceWise® Cooktop Oval Burner
Cook pancakes, hamburgers, or quesadillas with the SpaceWise® Oval Burner that is perfectly shaped to evenly heat griddles or other longer cookware.

Effortless™ Temperature Probe with Auto Keep Warm
The Effortless™ Temperature Probe allows you to set the desired finished temperature and alerts you when that temperature has been reached. The oven then holds the desired temperature of the meat by switching to a Keep Warm function for better cooking results.

Product Dimensions
- Height (Max.): 49"
- Width: 36"
- Depth (Including Handle): 30-3/4"

More Easy-To-Use Features

Effortless™ Convection Conversion
Takes the guesswork out of convection cooking — our oven automatically adjusts standard baking temperatures to convection temperatures for consistent results.

One-Touch Quick Self-Clean
Your oven cleans itself — so you don’t have to. Self clean options available in 2-, 3- and 4-hour cycles.

Power Burner
Power Burner offers more power and faster boil time with 18,200 BTU burner.

Low Simmer Burner
Perfect for cooking delicate foods and sauces.

Continuous Corner-to-Corner Grates
Move heavy pots & pans without lifting with continuous, corner-to-corner grates.

Sabbath Mode (Star-K® Certified)

Available in:
- Stainless (S)

Burners | BTU
--- | ---
Right Front | 18,200
Right Rear | 5,000
Left Front | 15,000
Left Rear | 9,500
Center Oval | 10,000

¹Based on single rack cooking performance, not set temperature, using Quick Preheat.

NOTE: For planning purposes only. Always consult local and national electric and gas codes. Refer to Product Installation Guide for detailed installation instructions on the web at frigidaire.com.
Freestanding Range Specifications

- Product Shipping Weight (approx.) – 395 Lbs.
- Voltage Rating – 120V / 60Hz / 7Amps
- Always consult local and national electric and gas codes.
- Make sure wall coverings around range can withstand heat generated by range.
- Linoleum or any other synthetic floor covering located beneath range, must be capable of withstanding minimum heat of 90°F above room temperature without shrinking, warping or discoloring. Insulating pad or 1/4"-thick plywood required between range and a carpeted floor.
- Do not obstruct flow of combustion air at oven vent nor around base or beneath lower front panel of range. Range requires fresh air for proper burner combustion.
- Do not install range beneath any downward-blowing, overhead vent hood or air curtain.
- Range ships with 3/4" factory regulator.
- Range is LP Gas convertible. (Optional LP Gas conversion kit available.)
- Floor beneath range MUST be solid and level.
- Overhead cabinetry should not exceed a 13" maximum depth.
- Absolute minimum horizontal distance between overhead cabinets installed to either side of appliance must be no less than maximum width of appliance.
- Range can be installed flush to wall with 0" minimum rear clearance.
- 5" minimum clearance required from edge of rangetop to nearest combustible wall on either side of range above 36" height.
- To reduce risk of fire when using overhead cabinetry, install range hood that projects horizontally a recommended minimum of 5" beyond bottom of cabinets.
- Follow all dimension requirements provided to prevent property damage, potential fire hazard, and incorrect countertop and cabinet cuts.

Note: For planning purposes only. Refer to Product Installation Guide on the web at frigidaire.com for detailed instructions.

Optional Accessories

- LP Gas Conversion Kit – (Included).

Specifications subject to change.
