WELCOME & CONGRATULATIONS

Congratulations on your purchase of a new microwave oven! At Electrolux Home Products, we are very proud of our product and are completely committed to providing you with the best service possible. Your satisfaction is our number one priority.

We know you’ll enjoy your new microwave oven and Thank You for choosing our product. We hope you consider us for future purchases.

PLEASE CAREFULLY READ AND SAVE THESE INSTRUCTIONS

This Use & Care Manual provides specific operating instructions for your model. Use your microwave oven only as instructed in this manual. These instructions are not meant to cover every possible condition and situation that may occur. Common sense and caution must be practiced when installing, operating and maintaining any appliance.

Please record your model and serial numbers below for future reference.

Model Number: __________________________________________
Serial Number: __________________________________________
Purchase Date: __________________________________________

NEED HELP?

Visit the Frigidaire Web Site at: http://www.frigidaire.com

Before you call for service, there are a few things you can do to help us serve you better.

Read this manual.

It contains instructions to help you use and maintain your microwave oven properly.

If you received a damaged Microwave Oven... immediately contact the dealer (or builder) that sold you the Microwave Oven.

Save time and money.

Check the section titled “Service Call Check”. This section helps you solve common problems that might occur. If you do need service, you can relax knowing help is only a phone call away.

A list of toll-free customer service numbers is included in the back of this manual. Or call Frigidaire Customer Services at 1-800-944-9044, 24 hours a day, 7 days a week.

IMPORTANT SAFETY INSTRUCTIONS

For your safety the information in this manual must be followed to minimize the risk of fire or explosion or to prevent property damage, personal injury or loss of life.

PRECAUTIONS TO AVOID POSSIBLE EXPOSURE TO EXCESSIVE MICROWAVE ENERGY

(a) Do not attempt to operate this oven with the door open since open-door operation can result in harmful exposure to microwave energy. It is important not to defeat or tamper with the safety interlocks.

(b) Do not place any object between the oven front face and the door or allow soil or cleaner residue to accumulate on sealing surfaces.

(c) Do not operate the oven if it is damaged. It is particularly important that the oven door close properly and that there is no damage to the: (1) door (bent), (2) hinges and latches (broken or loosened), (3) door seals and sealing surfaces.

(d) The oven should not be adjusted or repaired by anyone except properly qualified service personnel.
IMPORTANT SAFETY INSTRUCTIONS

Definitions

⚠️ WARNING indicates a potentially hazardous situation which, if not avoided, could result in death or serious injury.

⚠️ CAUTION indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injury.

READ ALL INFORMATION BEFORE USING

• Do not store anything directly on top of the appliance surface when the appliance is in operation.

• To reduce the risk of fire in the microwave oven cavity:
  - Do not overcook food. Carefully attend appliance when paper, plastic or other combustible materials are placed inside the microwave oven to facilitate cooking.
  - Remove wire twist-ties from paper or plastic bags before placing bag in microwave oven.
  - If materials inside the microwave oven ignite, keep microwave oven door closed, turn microwave oven off and disconnect the power cord or shut off power at the fuse or circuit breaker panel.
  - Do not use the cavity for storage purposes. Do not leave paper products, cooking utensils or food in the cavity when not in use.

• Liquids, such as water, coffee or tea are able to be overheated beyond the boiling point without appearing to be boiling. Visible bubbling or boiling when the container is removed from the microwave oven is not always present. THIS COULD RESULT IN VERY HOT LIQUIDS SUDDENLY BOILING OVER WHEN A SPOON OR OTHER UTENSIL IS INSERTED INTO THE LIQUID. To reduce the risk of injury to persons:
  - Do not overheat the liquid.
  - Stir the liquid both before and halfway through heating it.
  - Do not use straight-sided containers with narrow necks. Use a wide-mouthed container.
  - After heating, allow the container to stand in the microwave oven at least for 20 seconds before removing the container.
  - Use extreme care when inserting a spoon or other utensil into the container.

• Clean ventilation openings and grease filters frequently. Grease should not be allowed to accumulate on ventilation openings, louver or grease filters.

• Use care when cleaning the louver and the grease filters. Corrosive cleaning agents, such as lye-based oven cleaners, may damage the louver and the grease filters.

• When flaming food under the hood, turn the fan on.

• This appliance is suitable for use above both gas and electric cooking equipment 36" wide or less.

SAVE THESE INSTRUCTIONS.
IMPORTANT SAFETY INSTRUCTIONS

UNPACKING AND EXAMINING YOUR MICROWAVE OVEN
Open the bottom of the carton, bend the carton flaps back and tilt the microwave oven over to rest on plastic foam pad. Lift carton off microwave oven and remove all packing materials, Installation Instructions, Wall Template, Top Template, Charcoal Filter, Turntable and Turntable Support. SAVE THE CARTON AS IT MAY MAKE INSTALLATION EASIER.

- Remove the feature sticker from the outside of the door, if there is one.
- DO NOT REMOVE THE WAVEGUIDE COVER, which is located on the ceiling in the microwave oven cavity. Check to see that there are Installation Instructions, Wall Template, Top Template and Charcoal Filter, which is used when recirculating is chosen. Read enclosures and SAVE the Use and Care Manual.

Check the microwave oven for any damage, such as misaligned or bent door, damaged door seals and sealing surfaces, broken or loose door hinges and latches and dents inside the cavity or on the door. If there is any damage, do not operate the microwave oven and contact your dealer or ELECTROLUX SERVICER. See Installation Instructions for more details.

GROUNDING INSTRUCTIONS
This appliance must be grounded. This microwave oven is equipped with a cord having a grounding wire with a grounding plug. It must be plugged into a wall receptacle that is properly installed and grounded in accordance with the National Electrical Code and local codes and ordinances. In the event of an electrical short circuit, grounding reduces risk of electric shock by providing an escape wire for the electric current.

WARNING
Improper use of the grounding plug can result in a risk of electric shock.

Electrical Requirements
Check Installation Instructions for proper location for the power supply.

The electrical requirements are a 120 volt 60 Hz, AC only, 15 amp. or more protected electrical supply. It is recommended that a separate circuit serving only the microwave oven be provided.

The microwave oven is equipped with a 3-prong grounding plug. It must be plugged into a wall receptacle that is properly installed and grounded. DO NOT UNDER ANY CIRCUMSTANCES CUT OR REMOVE THE GROUNDING PIN FROM THE PLUG. DO NOT USE AN EXTENSION CORD.

If the power supply cord is too short, have a qualified electrician or serviceman install an outlet near the appliance. The Power Supply Cord and plug must be connected to a separate 120 Volt AC, 60 Hz, 15 Amp, or more branch circuit, single grounded receptacle. The receptacle should be located inside the cabinet directly above the Microwave Oven mounting location as shown in Figure 1.

NOTES
1. If you have any questions about the grounding or electrical instructions, consult a qualified electrician or service person.
2. Neither Electrolux nor the dealer can accept any liability for damage to the microwave oven or personal injury resulting from failure to observe the correct electrical connection procedures.
IMPORTANT SAFETY INSTRUCTIONS

Federal Communications Commission Radio Frequency Interference Statement (U.S.A. Only)

This equipment generates and uses ISM frequency energy and if not installed and used properly, that is in strict accordance with the manufacturer’s instructions, may cause interference to radio and television reception. It has been type tested and found to comply with limits for ISM Equipment pursuant to part 18 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following:

- Reorient the receiving antenna of the radio or television.
- Relocate the microwave oven with respect to the receiver.
- Move the microwave oven away from the receiver.
- Plug the microwave oven into a different outlet so that the microwave oven and the receiver are on different branch circuits.

The manufacturer is not responsible for any radio or television interference caused by unauthorized modification to this microwave oven. It is the responsibility of the user to correct such interference.
IMPORTANT SAFETY INSTRUCTIONS

ABOUT YOUR MICROWAVE OVEN
This Use and Care Manual is valuable: read it carefully and always save it for reference.
A good microwave cookbook is a valuable asset. Check it for microwave cooking principles, techniques, hints and recipes.
NEVER use the microwave oven without the turntable and support nor turn the turntable over so that a large dish could be placed in the microwave oven. The turntable will turn both clockwise and counterclockwise. See page 23 for complete instructions.
ALWAYS have food in the microwave oven when it is on to absorb the microwave energy.
When using the microwave oven at power levels below 100%, you may hear the magnetron cycling on and off. It is normal for the exterior of the microwave oven to be warm to the touch when cooking or reheating.
Condensation is a normal part of microwave cooking. Room humidity and the moisture in food will influence the amount of moisture that condenses in the microwave oven. Generally, covered foods will not cause as much condensation as uncovered ones. Ventilation openings must not be blocked.
The microwave oven is for food preparation only. It should not be used to dry clothes or newspapers.
Your microwave oven is rated 1000 watts by using the IEC Test Procedure. In using recipes or package directions, check food a minute or two before the minimum time and add time accordingly.

ABOUT MICROWAVE COOKING
• Arrange food carefully. Place thickest areas towards outside of dish.
• Watch cooking time. Cook for the shortest amount of time indicated and add more as needed. Food severely overcooked can smoke or ignite.
• Cover foods while cooking. Check recipe or cookbook for suggestions: paper towels, wax paper, microwave plastic wrap or a lid. Covers prevent spattering and help foods to cook evenly.
• Shield with small flat pieces of aluminum foil any thin areas of meat or poultry to prevent overcooking before dense, thick areas are cooked thoroughly.
• Stir foods from outside to center of dish once or twice during cooking, if possible.
• Turn foods over once during microwaving to speed cooking of such foods as chicken and hamburgers. Large items like roasts must be turned over at least once.
• Rearrange foods such as meatballs halfway through cooking both from top to bottom and from the center of the dish to the outside.
• Add standing time. Remove food from microwave oven and stir, if possible. Cover for standing time which allows the food to finish cooking without overcooking.
• Check for doneness. Look for signs indicating that cooking temperatures have been reached.
Doneness signs include:
- Food steams throughout, not just at edge.
- Center bottom of dish is very hot to the touch.
- Poultry thigh joints move easily.
- Meat and poultry show no pinkness.
- Fish is opaque and flakes easily with a fork.

ABOUT FOOD

<table>
<thead>
<tr>
<th>FOOD</th>
<th>DO</th>
<th>DON'T</th>
</tr>
</thead>
</table>
| Eggs, sausages, nuts, seeds, fruits & vegetables | • Puncture egg yolks before cooking to prevent "explosion".  
• Pierce skins of potatoes, apples, squash, hot dogs and sausages so that steam escapes. | • Cook eggs in shells.  
• Reheat whole eggs.  
• Dry nuts or seeds in shells. |
| Popcorn                   | • Use specially bagged popcorn for microwave cooking.  
• Listen while popping corn for the popping to slow to 1 or 2 seconds or use special popcorn pad. | • Pop popcorn in regular brown bags or glass bowls.  
• Exceed maximum time on popcorn package. |
| Baby food                 | • Transfer baby food to small dish and heat carefully, stirring often. Check temperature before serving.  
• Put nipples on bottles after heating and shake thoroughly. "Wrist" test before feeding. | • Heat disposable bottles.  
• Heat bottles with nipples on.  
• Heat baby food in original jars. |
| General                   | • Cut baked goods with filling after heating to release steam and avoid burns.  
• Stir liquids briskly before and after heating to avoid "eruption".  
• Use deep bowl, when cooking liquids or cereals, to prevent boilovers. | • Heat or cook in closed glass jars or air tight containers.  
• Can in the microwave as harmful bacteria may not be destroyed.  
• Deep fat fry.  
• Dry wood, gourds, herbs or wet papers. |
IMPORTANT SAFETY INSTRUCTIONS

ABOUT UTENSILS AND COVERINGS
It is not necessary to buy all new cookware. Many pieces already in your kitchen can be used successfully in your new microwave oven. Make sure the utensils do not touch the interior walls during cooking.

Use these utensils for safe microwave cooking and reheating:
- glass ceramic (Pyroceram®), such as Corningware®
- heat-resistant glass (Pyrex®)
- microwave-safe plastics
- paper plates
- microwave-safe pottery, stoneware and porcelain
- browning dish (Do not exceed recommended preheating time. Follow manufacturer’s directions.)

These items can be used for short time reheating of foods that have little fat or sugar in them:
- wood, straw, wicker

DO NOT USE
- metal pans and bakeware
- dishes with metallic trim
- non-heat-resistant glass
- non-microwave-safe plastics (margarine tubs)
- recycled paper products
- brown paper bags
- food storage bags
- metal twist ties

Should you wish to check if a dish is safe for microwaving, place the empty dish in the microwave oven and microwave on HIGH for 30 seconds. A dish which becomes very hot should not be used.

The following coverings are ideal:
- Paper towels are good for covering foods for reheating and absorbing fat while cooking bacon.
- Wax paper can be used for cooking and reheating.
- Plastic wrap that is specially marked for microwave use can be used for cooking and reheating. DO NOT allow plastic wrap to touch food. Vent so steam can escape.
- Lids that are microwave-safe are a good choice because heat is kept near the food to hasten cooking.
- Microwave oven cooking bags are good for large meats or foods that need tenderizing. DO NOT use metal twist ties. Remember to slit bag so steam can escape.

How to use aluminum foil in your microwave oven:
- Small fat pieces of aluminum foil placed smoothly on the food can be used to shield areas that are either defrosting or cooking too quickly.
- Foil should not come closer than one inch to any surface of the microwave oven.

Should you have questions about utensils or coverings, check a good microwave cookbook or follow recipe suggestions.

ACCESSORIES There are many microwave accessories available for purchase. Evaluate carefully before you purchase so that they meet your needs. A microwave-safe thermomter will assist you in determining correct doneness and assure you that foods have been cooked to safe temperatures. Electrolux is not responsible for any damage to the microwave oven when accessories are used.

ABOUT CHILDREN AND THE MICROWAVE
Children below the age of 7 should use the microwave oven with a supervising person very near to them. Between the ages of 7 and 12, the supervising person should be in the same room. As with any appliance, close supervision by an adult is necessary when used by children.

At no time should anyone be allowed to lean or swing on the microwave oven door.

Children should be taught all safety precautions: use potholders, remove coverings carefully, pay special attention to packages that crisp food because they may be extra hot.

Don’t assume that because a child has mastered one cooking skill he/she can cook everything.

Children need to learn that the microwave oven is not a toy. See page 20 for Child Lock feature.

ABOUT SAFETY
Check foods to see that they are cooked to the United States Department of Agriculture’s recommended temperatures.

<table>
<thead>
<tr>
<th>TEMP</th>
<th>FOOD</th>
</tr>
</thead>
<tbody>
<tr>
<td>145°F(63°C)</td>
<td>For beef, lamb or veal cut into steaks, chops or roasts, fish</td>
</tr>
<tr>
<td>160°F(71°C)</td>
<td>For fresh pork, ground meat, seafood, egg dishes, frozen prepared food and beef, lamb or veal cut into steaks, chops or roasts</td>
</tr>
<tr>
<td>165°F(74°C)</td>
<td>For leftover, ready-to-reheat refrigerated, deli and carry out “fresh” food, whole chicken or turkey, chicken or turkey breasts and ground poultry used in chicken or turkey burgers</td>
</tr>
</tbody>
</table>

NOTE
Do not cook whole, stuffed poultry. Cook stuffing separately to 165°F.

To test for doneness, insert a meat thermometer in a thick or dense area away from fat or bone. NEVER leave the thermometer in the food during cooking, unless it is approved for microwave oven use.

ALWAYS use potholders to prevent burns when handling utensils that are in contact with hot food. Enough heat from the food can transfer through utensils to cause skin burns.

Avoid steam burns by directing steam away from the face and hands. Slowly lift the farthest edge of a dish’s covering and carefully open popcorn and oven cooking bags away from the face.

Stay near the microwave oven while it’s in use and check cooking progress frequently so that there is no chance of overcooking food.

NEVER use the cavity for storing cookbooks or other items.

Select, store and handle food carefully to preserve its high quality and minimize the spread of foodborne bacteria.

Keep waveguide cover clean. Food residue can cause arcing and/or fires.

Use care when removing items from the microwave oven so that the utensil, your clothes or accessories do not touch the safety door latches.

Keep aluminum foil used for shielding at least 1 inch away from walls, ceiling and door.
1 Microwave oven door with see-through window
2 Door hinges
3 Waveguide cover: DO NOT REMOVE.
4 Turntable motor shaft
5 Microwave oven light
   It will light when microwave oven is operating or door is open.
6 Rack holders
7 Safety door latches
   The microwave oven will not operate unless the door is securely closed.
8 Handle
9 Light hi/lo/off pad
   Press the light hi/lo/off pad once for high, twice for low and three times to turn off the light.
10 Vent hi/lo/off pad
   Press the vent hi/lo/off pad once for high speed, twice for low speed and three times to turn off the fun.
11 Auto-Touch control panel
12 Time display: Digital display, 99 minutes, 99 seconds
13 Ventilation openings
14 Removable turntable
   The turntable will rotate clockwise or counterclockwise. Only remove for cleaning.
15 Removable turntable support
   First, carefully place the turntable support in the motor shaft in the center of the microwave oven floor. Then, place the turntable on the turntable support securely.
16 Rack for 2-level cooking/ reheating
17 Light cover
18 Grease filters
19 Menu label
The 7-digit Interactive Display spells out operating steps and shows cooking hints. When HELP is lighted in the display, press the user pref pad to read a specific hint which may assist you.

NOTE
When a pad is pressed, an audible signal will be heard which confirms the pad has been pressed.
BEFORE OPERATING

- Before operating your new oven make sure you read and understand this Use and Care Guide completely.
- Before the Over the Range Microwave Oven can be used, follow these procedures:
  1. Plug in the oven. Close the door. The oven display will show ENJOY YOUR OVEN PRESS CLEAR.
  2. Press the STOP clear pad. [:] will appear.
  3. Set clock. See below.

To Set the Clock
- Suppose you want to enter the correct time of day 12:30 (A.M or P.M).

<table>
<thead>
<tr>
<th>Step</th>
<th>Press</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Press the user pref pad.</td>
</tr>
<tr>
<td>2.</td>
<td>Press number 5.</td>
</tr>
<tr>
<td>3.</td>
<td>Enter the correct time of day by pressing the numbers in sequence.</td>
</tr>
<tr>
<td>4.</td>
<td>Press the START enter +30 sec pad.</td>
</tr>
</tbody>
</table>

This is a 12 hour clock. If you attempt to enter an incorrect clock time, ERROR will appear in the display. Press the STOP clear pad and re-set the clock.
- If the electrical power supply to your microwave oven should be interrupted, the display will intermittently show after the power is reinstated. If this occurs during cooking, the program will be erased. The time of day will also be erased. Simply press STOP clear pad and reset the clock for the correct time of day.

NOTE

Your Over the Range Microwave Oven can be programmed with the door open except for +30 sec, Popcorn, Vegetables, Baked Potato and Sensor Reheat.

STOP clear
Press the STOP clear to:
  1. Erase if you make a mistake during programming.
  2. Cancel timer.
  3. Stop the oven temporarily during cooking.
  4. Return the time of day to the display.
  5. Cancel a program during cooking, press twice.

MANUAL COOKING

Time Cooking
Your Over the Range Microwave Oven can be programmed for 99 minutes 99 seconds (99.99). Always enter the seconds after the minutes, even if they are both zeros.
- Suppose you want to cook for 5 minutes at 100%.

<table>
<thead>
<tr>
<th>Step</th>
<th>Press</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Enter cooking time.</td>
</tr>
<tr>
<td>2.</td>
<td>Press the START enter +30 sec pad.</td>
</tr>
</tbody>
</table>

To Set Power Level
There are eleven preset power levels. Using lower power levels increases the cooking time which is recommended for foods such as cheese, milk and long slow cooking of meats. Consult cookbook or recipes for specific recommendations.

<table>
<thead>
<tr>
<th>PRESS POWER LEVEL PAD NUMBER OF TIMES FOR DESIRED POWER</th>
<th>APPROXIMATE PERCENTAGE OF POWER</th>
<th>COMMON WORDS FOR POWER LEVELS</th>

<td></td>
</tr>
<tr>
<td>POWER LEVEL x 7 40%</td>
<td></td>
<td></td>
</tr>
<tr>
<td>POWER LEVEL x 8 30%</td>
<td>Med Low/Defrost</td>
<td></td>
</tr>
<tr>
<td>POWER LEVEL x 9 20%</td>
<td></td>
<td></td>
</tr>
<tr>
<td>POWER LEVEL x 10 10%</td>
<td>Low</td>
<td></td>
</tr>
<tr>
<td>POWER LEVEL x 11 0%</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
MANUAL COOKING

• Suppose you want to defrost for 5 minutes at 30%.

<table>
<thead>
<tr>
<th>Step</th>
<th>Press</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Enter defrosting time.</td>
<td>5 0 0</td>
</tr>
<tr>
<td>2. Press the <strong>power level</strong> pad eight times to enter a power level of 30%.</td>
<td>( \text{power level} \times 8 )</td>
</tr>
<tr>
<td>3. Press the <strong>START enter +30 sec</strong> pad.</td>
<td>( \text{START enter} +30 \text{ sec} )</td>
</tr>
</tbody>
</table>

When the defrost time is complete, cooking completion signal will beep and END will appear in the display.

**Manual Defrost**

If the food that you wish to defrost is not listed on the Defrost chart or is above or below the limits in the Amount column on the Defrost chart (see page 19), you need to defrost manually.

You can defrost any frozen food, either raw or previously cooked, by using power level for 30%. Follow the exact 3-step procedure found under. To set power level. Estimate defrosting time and press **power level** pad eight times for 30% power.

For either raw or previously cooked frozen food the rule of thumb is approximately 4 minutes per pound. For example, defrost 4 minutes for 1 pound of frozen spaghetti sauce. Always stop the oven periodically to remove or separate the portions that are defrosted. If food is not defrosted at the end of the estimated defrosting time, program the oven in 1 minute increments on power level 30% until totally defrosted.

When using plastic containers from the freezer, defrost only long enough to remove from the plastic in order to place in a microwave-safe dish.

**Using the Rack**

The rack allows several foods to be cooked or reheated at one time. However, for the best cooking and reheating, use Turntable ON function and cook with SENSOR COOKING or AUTO COOKING without the rack. When the rack is used, set time and power level manually. Allow plenty of space around and between the dishes. Pay close attention to the cooking and reheating progress. Reposition the foods and reverse them from the rack to turntable and/or stir them at least once during any cooking or reheating time. After cooking or reheating, stir if possible. Using a lower power level will assist in better cooking and reheating uniformity.

**Avoid:**

• Storing the rack in the microwave oven when not in use.
• Popping popcorn with the rack in the microwave oven.
• Using any browning dish on the rack.
• Using SENSOR COOKING and AUTO COOKING with the rack.
• Cooking directly on the rack—use microwave-safe cookware.

**NOTE**

Turntable on/off function can be used in Manual Operation. See page 22.
SENSOR COOKING

Sensor cooking has an electronic controlled sensor that detects the vapor (moisture and humidity) emitted from the food as it heats. The sensor adjusts the cooking times and power level for various foods and quantities automatically.

Using Sensor Settings:
1. After oven is plugged in, wait 2 minutes before using Sensor Settings.
2. Be sure the exterior of the cooking container and the interior of the oven are dry. Wipe off any moisture with a dry cloth or paper towel.
3. The oven works with foods at normal storage temperature. For example, popcorn would be at room temperature.
4. Any Sensor Settings selection can be programmed with More or Less Time Adjustment. See page 21.
5. More or less food than the quantity listed in the chart should be cooked following the guidelines in any microwave cookbook.
6. During the first part of SENSOR COOKING, food name will appear in the display. Do not open the oven door or press the STOP clear pad during this part of the cycle. The measurement of vapor will be interrupted. If this occurs, an error message will appear. To continue cooking, press the STOP clear pad and cook manually.
7. If the sensor does not detect vapor properly when popping popcorn, the oven will turn off, and the correct time of day will be displayed. If the sensor does not detect vapor properly when cooking other foods, ERROR will be displayed, and the oven will turn off.
8. Check food for temperature after cooking. If additional time is needed, continue to cook manually.
9. Each food has a cooking hint. Press the user pref pad when the HELP indicator is lighted in the display.

Covering Foods:
Some foods cook better when covered. Use the cover recommended in the food charts.
1. Casserole lid.
2. Plastic wrap: Use plastic wrap recommended for microwave cooking. Cover dish loosely; allow approximately 1/2 inch to remain uncovered to allow steam to escape. Plastic wrap should not touch food.
3. Wax paper: Cover dish completely; fold excess wrap under dish to secure. If dish is wider than paper, overlap two pieces at least one inch to cover.

Be careful when removing any covering to allow steam to escape away from you.

NOTES for SENSOR COOKING
1. SENSOR MODES can be programmed with More or Less Time Adjustment. Press the power level pad once or twice before cooking is started. See page 21.
2. Each food has a cooking hint. Press the user pref pad when the HELP indicator is lighted in the display.
3. Should you attempt to enter more or less than the allowed amount, an error message will appear in the display. More or less than the quantity listed in the chart should be cooked following the guidelines in any microwave cookbook.
4. The final cooking result will vary according to the food condition (e.g. initial temperature, shape, quality). Check food for temperature after cooking. If additional time is needed, continue to cook manually.
5. When sensor detects the vapor emitted from the foods, manipulation message or remaining cooking time will be displayed.
6. Stay near the oven while it’s in use and check cooking progress frequently so that there is no chance of overcooking food.
7. When SENSOR COOKING are selected Turntable On is automatically set for optimum cooking.

Sensor Cook
There are 5 foods (Frozen Entrees, Ground Meat, Rice, Fish/Seafood, and Chicken Breast) under the SENSOR COOK that uses the sensor.
You can cook many foods by pressing the sensor cook pad and the food number. You don’t need to calculate cooking time or power level.
- Suppose you want to cook Frozen Entrees.

<Dinner Recipes>

6. Chicken and Rice

Suppose you want to cook Chicken and Rice.

<table>
<thead>
<tr>
<th>Step</th>
<th>Press</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Press the auto cook pad, number 6 and the START enter +30 sec pad for Chicken and Rice.</td>
</tr>
<tr>
<td>2.</td>
<td>Midway through the cooking, audible signals will be heard and your oven will stop. Open the door, follow the instruction shown in the display and close the door. Press the START enter +30 sec pad.</td>
</tr>
</tbody>
</table>

NOTE

If mute is set, the audible signals will not be heard at Step 2. See 2, Audible Signal Elimination on page 20.

8. Vegetarian Medley

Place in a 3 quart casserole:

- 1 cup orzo or other tiny shaped pasta
- 3/4 cups vegetable or chicken broth
- 1/4 cup small pieces of sundried tomatoes
- 1 tablespoon minced garlic
- 1 tablespoon Italian seasoning

At pause, stir well and add:

- 3 cups chopped green, red, orange or yellow peppers
- 1 onion, thinly sliced
- 1 can (14 ounces) artichoke hearts, drained and quartered
- 1 can (3 ounces) pitted, ripe olives, drained and halved

Re-cover. Press the START enter +30 sec pad.

At end, stir and garnish with:

- 1/2 cup freshly shredded Parmesan cheese
- 1/4 cup pine nuts

7. Seafood Pasta

Place in a 3 quart casserole:

- 8 - 9 ounces fresh tortellini
- 2 cups water

At pause, stir well and add:

- 1 jar (17 ounces) creamy Alfredo sauce or 1 3/4 cups of medium, white cheese sauce
- 1 1/4 pounds combination raw shellfish, fresh or thawed (shrimp, bay scallops, crabmeat)
- 3 cups mixed, fresh vegetables (sliced mushrooms, thinly juliened carrots, green beans)

Re-cover. Press the START enter +30 sec pad.

At end, garnish with:

- 1/3 cup grated Parmesan cheese
**AUTO COOKING**

**Chicken Nuggets**
- Suppose you want to heat 0.3 pound or 0.3 kilogram chicken nuggets.

<table>
<thead>
<tr>
<th>Step</th>
<th>Press</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Press the <strong>chicken nuggets</strong> pad.</td>
</tr>
<tr>
<td>2.</td>
<td>Enter amount by pressing the number 3. Ex: 0.3 lb or 0.3 kg chicken nuggets.</td>

<tbody>
<tr>
<td>Chicken Nuggets</td>
<td>0.3 - 1.0 lb</td>
<td>Place frozen chicken nuggets on a flat plate allowing space between each. It is not necessary to cover them. When oven stops, rearrange and press the <strong>START enter +30 sec</strong> pad.</td>
</tr>
<tr>
<td>Chicken Nuggets</td>
<td>0.2 - 0.4 kg</td>
<td></td>
</tr>
</tbody>
</table>

**NOTES**
1. When 1.0 pound chicken nuggets is heated, press number 1 and 0 at Step 2.
2. If mute is set, the audible signals will not be heard at Step 4. See 2, Audible Signal Elimination on page 20.
**Auto Defrost**

There are 6 foods (Ground Meat, Steaks/Chops/Fish, Chicken Pieces, Roast, Casserole and Soup) under the Auto Defrost.

Auto Defrost automatically defrosts all the foods found in the Defrost chart below.

- Suppose you want to defrost a 1.8 pound or 1.8 kilogram steak.

<table>
<thead>
<tr>
<th>Step</th>
<th>Press</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Press the <strong>auto defrost</strong> pad and number 2 for steak.</td>
</tr>
<tr>
<td>2.</td>
<td>Enter weight by pressing number 1 and 8. Ex: 1.8 lb or 1.8 kg steak.</td>
</tr>
<tr>
<td>3.</td>
<td>Press the <strong>START enter +30 sec</strong> pad.</td>
</tr>
<tr>
<td>4.</td>
<td>Midway through the cooking, audible signals will be heard and your oven will stop. Open the door, follow the instruction shown in the display and close the door. Press the <strong>START enter +30 sec</strong> pad.</td>
</tr>
</tbody>
</table>

After defrost cycle ends, let stand, covered.

</tbody>
</table>
CONVENIENT FEATURES

User Pref

User Pref provides 5 features that make using your oven easy because specific instructions are provided in the interactive display.

1. Child Lock

The Child Lock prevents unwanted oven operation such as by small children. The oven can be set so that the control panel is deactivated or locked. To set, press the user pref pad, the number 1 and then press the START enter +30 sec pad. Should a pad be pressed, LOCKED will appear in the display.

To cancel, press the user pref pad and the START enter +30 sec pad. Child Lock will not be canceled if other pads except the START enter +30 sec pad are pressed after pressing the user pref pad.

2. Audible Signal Elimination

If you wish to have the oven operate with no audible signals, press the user pref pad, number 2 and the STOP clear pad.

To cancel and restore the audible signal, press the user pref pad, number 2 and the START enter +30 sec pad.

3. Auto Start

If you wish to program your oven to begin cooking automatically at a designated time of day, follow this procedure:

- Suppose you want to start cooking a stew for 20 minutes at 50% power level at 4:30. Before setting, check to make sure the clock is showing the correct time of day.

<table>
<thead>
<tr>
<th>Step</th>
<th>Press</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Press the user pref pad.</td>
</tr>
<tr>
<td>2.</td>
<td>Press number 3.</td>
</tr>
<tr>
<td>3.</td>
<td>Enter the start time. Ex: 4:30</td>
</tr>
<tr>
<td>4.</td>
<td>Press the START enter +30 sec pad.</td>
</tr>
</tbody>
</table>

5. Enter cooking time. Ex: 20 minutes

6. Press the power level pad six times for 50% power.

7. Press the START enter +30 sec pad.

NOTES

1. Auto Start can be used for manual cooking in conjunction with sequence cooking if clock is set.
2. If the oven door is opened after programming Auto Start, it is necessary to press the START enter +30 sec pad for Auto Start time to appear in the display so that the oven will automatically begin programmed cooking at the chosen Auto Start time.
3. Be sure to choose foods that can be left in the oven safely until the Auto Start time. Acorn or butternut squash are often a good choice.
4. After programming Auto Start, open the door and close the door to cancel auto start function.
5. If the electrical power supply to your microwave oven should be interrupted, reset the clock (see page 10) and follow the procedure above to set Auto Start.
CONVENIENT FEATURES

4. Language Selection

The oven comes set for English and U.S. Customary Unit-pounds. Your oven can be selected 3 Languages, English, Spanish or French, and 2 units, pounds or kilograms for each language. To change, press the user pref pad and number 4. Continue to press the number 4 until your choice is selected from the table below. Then, press the START enter +30 sec pad.

<table>
<thead>
<tr>
<th>Press the user pref pad and number 4</th>
<th>Language</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>once</td>
<td>English</td>
<td>LB</td>
</tr>
<tr>
<td>twice</td>
<td>English</td>
<td>KG</td>
</tr>
<tr>
<td>3 times</td>
<td>Spanish</td>
<td>LB</td>
</tr>
<tr>
<td>4 times</td>
<td>Spanish</td>
<td>KG</td>
</tr>
<tr>
<td>5 times</td>
<td>French</td>
<td>LB</td>
</tr>
<tr>
<td>6 times</td>
<td>French</td>
<td>KG</td>
</tr>
<tr>
<td>7 times</td>
<td>English</td>
<td>LB</td>
</tr>
<tr>
<td>8 times</td>
<td>English</td>
<td>LB</td>
</tr>
</tbody>
</table>

5. Set the Clock

See page 10.

Multiple Sequence Cooking

Your oven can be programmed for up to 4 automatic cooking sequences, switching from one power level setting to another automatically. Sometimes cooking directions tell you to start on one power level and then change to a different power level. Your oven can do this automatically.

- Suppose you want to cook roast beef for 5 minutes at 100% and then continue to cook for 30 minutes at 50%.

<table>
<thead>
<tr>
<th>Step</th>
<th>Press</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Enter cooking time for 1st stage.</td>
<td>5 0 0</td>
</tr>
<tr>
<td>2. Press the power level pad once for 100% power for 1st stage.</td>
<td>power level x 6</td>
</tr>
<tr>
<td>3. Enter second cooking time for 2nd stage.</td>
<td>3 0 0</td>
</tr>
</tbody>
</table>

4. Press the power level pad 6 times for 50% power for 2nd stage.

5. Press the START enter +30 sec pad for 2nd stage.

NOTE

If 100% is selected as the final sequence, it is not necessary to press the power level pad.

More or Less Time Adjustment

Should you discover that you like any of SENSOR COOKING or AUTO COOKING slightly more done, press the power level pad once after pressing your choice of pads or before pressing the START enter +30 sec pad. The display will show MORE.

Should you discover that you like any of SENSOR COOKING or AUTO COOKING slightly less done, press the power level pad twice after pressing your choice of pads or before pressing the START enter +30 sec pad. The display will show LESS.

+30 Seconds

+30 seconds allows you to cook for 30 seconds at 100% by simply pressing the START enter +30 sec pad. You can also extend cooking time in multiples of 30 seconds by repeatedly pressing the START enter +30 sec pad until maximum 99 minutes during manual cooking.

- Suppose you want to heat a cup of soup for 30 seconds.

<table>
<thead>
<tr>
<th>Step</th>
<th>Press</th>
</tr>
</thead>
<tbody>
<tr>
<td>Press the START enter +30 sec pad.</td>
<td>START enter +30 sec</td>
</tr>
</tbody>
</table>

NOTES

1. To use +30 sec, press the pad within 3 minutes after cooking, closing the door, pressing the STOP clear pad or during cooking.

2. +30 seconds cannot be used with SENSOR COOKING and AUTO COOKING.

Help

Each setting has a cooking hint. If you wish to check, press the user pref pad whenever HELP is lighted in the Interactive Display for these and other manual operation hints.
CONVENIENT FEATURES

Timer
You can easily use Timer function as independent kitchen timer or while using microwave for cooking.

- Suppose you want to time a 3-minute long distance phone call.

<table>
<thead>
<tr>
<th>Step</th>
<th>Press</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Press the timer on-off pad.</td>
</tr>
<tr>
<td>2.</td>
<td>Enter time.</td>
</tr>
<tr>
<td>3.</td>
<td>Press the timer on-off pad. The timer will count down.</td>
</tr>
<tr>
<td>4.</td>
<td>At end of timer, 3 long beeps will sound and words Timer / End will flash in the display. This tells you the timer is completed. To cancel, just touch any key pad. The time of day clock will then appear in display.</td>
</tr>
</tbody>
</table>

**NOTES**

1. Timer on-off pad acts as an independent kitchen timer. It can be used before microwave is started for cooking or after microwave has already been started cooking. Timer can not be set while microwave cooking is programing.
2. Timer is always started as example above - touch timer pad, enter desired time, press timer pad again to start count down.
3. Cancelling the Timer function is completed as follows - touch timer pad, then touch STOP clear pad. Timer is cancelled. This must be done within 4 seconds after touching timer pad. See Timer Operation Table below.
4. When Timer function is completed, 3 long beeps will sound and words Timer / End will flash in the display. This tells you the timer function is completed. To cancel, just touch any key pad. The time of day clock will then appear in display.
5. If using timer when cooking with microwave, when timer is completed, 3 long beeps will sound and words Timer / End will flash in the display. This will continue until timer is cancelled by pressing any key pad. The microwave cooking time will then appear in display.
6. If using timer when cooking with microwave, and cooking is completed and canceled, Timer remaining time will be displayed and continue counting down.

Turntable on/off
Turntable off function is useful when a rack or a large casserole which stop the turntable's rotating are used, for example lasagne or meat. Reposition the foods and/or stir them at least once during any cooking or reheating time. After cooking or reheating, stir if possible. Using a lower power level will assist in better cooking or reheating uniformly.
Turntable on/off function can be used in Manual Cooking. When Turntable on is set, Turntable is turned and when Turntable off is set, Turntable is stopped. When SENSOR COOKING and AUTO COOKING are selected, Turntable on is automatically set for optimum cooking.
Turntable on/off can be set during Manual Cooking and cooking programming by pressing the turntable on/off pad.

Quick Start
Quick start is very useful function to start or add to cook from 1 minute to 3 minutes by pressing number from 1 to 3 at 100% power without pressing the START enter +30 sec pad. Press number from 1 to 3 within 3 minutes after cooking, closing the door, pressing the STOP clear pad.
- Suppose you want to cook 2 minutes at 100% power.

<table>
<thead>
<tr>
<th>Step</th>
<th>Press</th>
</tr>
</thead>
<tbody>
<tr>
<td>Press number 2.</td>
<td></td>
</tr>
</tbody>
</table>

Demonstration Mode
To demonstrate, press the user pref pad, number 5, 0 and then press the START enter +30 sec pad and hold for three seconds. DEMO ON DURING DEMO NO OVEN POWER will appear in the display. Cooking operations and specific special features can now be demonstrated with no power in the oven. For example, press the START enter +30 sec pad and the display will show .30 and count down quickly to END.
To cancel, press the user pref pad, number 5, 0 and the STOP clear pad. If easier, unplug the oven from the electrical outlet and replug.

Light
Press the light hi/lo/off pad once for high, twice for Low and three times to turn off.

Fan
The fan will automatically start when heat rises from range surface units or burners. This protects the Over the Range Microwave Oven from excessive temperature rise. The fan will stay on until the temperature decreases. It cannot be turned off manually during this time.
For other uses, press the vent hi/lo/off pad once for high speed, twice for low speed and three times to turn off.

</tbody>
</table>
DISCONNECT THE POWER CORD BEFORE CLEANING OR
LEAVE THE DOOR OPEN TO DEACTIVATE THE OVEN DURING CLEANING.

EXTERIOR
The outside surface is precoated steel and plastic. Clean the outside with mild soap and water; rinse and dry with a soft cloth. Do not use any type of household or abrasive cleaner.

DOOR
Wipe the window on both sides with a soft cloth to remove any spills or spatters. Metal parts will be easier to maintain if wiped frequently with a soft cloth. Avoid the use of spray and other harsh cleaners as they may stain, streak or dull the door surface.

EASY CARE™ STAINLESS STEEL
(SOME MODELS)
Your microwave oven finish may be made with Easy Care™ Stainless Steel (some models). Clean the stainless with warm soapy water using a clean sponge or cloth. Rinse with clean water and dry with a soft clean cloth. DO NOT use ANY store bought cleaners like Stainless Steel cleaners or any other types of cleaners containing any abrasive, chlorides, chlorines or ammonia. It is recommended to use mild dish soap and water or a 50/50 solution of water and vinegar.

TOUCH CONTROL PANEL
Care should be taken in cleaning the touch control panel. If the control panel becomes soiled, open the microwave oven door before cleaning. Wipe the panel with a cloth dampened slightly with water only. Dry with a soft cloth. Do not scrub or use any sort of chemical cleaners. Close door and touch Clear/Off.

INTERIOR
Cleaning is easy because little heat is generated to the interior surfaces; therefore, there is no baking and setting of spills or spattering. To clean the interior surfaces, wipe with a soft cloth and warm water. DO NOT USE ABRASIVE OR HARSH CLEANERS OR SCOURING PADS. For heavier soil, use baking soda or a mild soap; rinse thoroughly with hot water. The rack can be cleaned with hot soapy water, rinsed and dried.

WAVEGUIDE COVER
The waveguide cover is located on the ceiling in the microwave oven cavity. It is made from mica so requires special care. Keep the waveguide cover clean to assure good microwave oven performance. Carefully wipe with a damp cloth any food spatters from the surface of the cover immediately after they occur. Built-up splashes may overheat and cause smoke or possibly catch fire. DO NOT REMOVE THE WAVEGUIDE COVER.

ODOR REMOVAL
Occasionally, a cooking odor may remain in the microwave oven. To remove, combine 1 cup water, grated peel and juice of 1 lemon and several whole cloves in a 2-cup glass measuring cup. Boil for several minutes using 100% power. Allow to set in microwave oven until cool. Wipe interior with a soft cloth.

TURNTABLE/TURNTABLE SUPPORT
The turntable and turntable support can be removed for easy cleaning. Wash them in mild, sudsy water; for stubborn stains use a mild cleanser and non-abrasive scouring sponge. They are also dishwasher-proof. Use upper rack of dishwasher. The turntable motor shaft is not sealed, so excess water or spills should be wiped up immediately.

GREASE FILTERS
Filters should be cleaned at least once a month. Never operate the fan or microwave oven without the filters in place.
1. Pull down slightly on the tab toward the front of the microwave oven and remove the filter. Repeat for the other filter.
2. Soak the filters in a sink or dish pan filled with hot water and detergent. DO NOT use ammonia or other alkali; they will react with the filter material and darken it.
3. Agitate and scrub with a brush to remove embedded dirt.
4. Rinse thoroughly and shake dry.
5. Replace by fitting the filter back into the opening.

Disconnect the power cord before cleaning or leave the door open to deactivate the oven during cleaning.
CLEANING AND CARE

Disconnect the power cord before cleaning or leave the door open to deactivate the oven during cleaning.

CHARCOAL FILTER
Charcoal Filter, which was installed in your microwave oven, is used for nonvented, recirculated installation. The filter should be changed every 6 to 12 months depending on use.
1. Disconnect power to the microwave oven at the circuit breaker panel or by unplugging.
2. Remove three Hood Louver screws.
3. Tilt the Hood louver downward then pull it out so bottom tabs become unlocked.
4. Pull the Charcoal Filter upward to remove from your oven.
5. Attach the Charcoal Filter to the upper side of the oven by sliding into the tabs.
6. Carefully push the louver back into place and replace the screws removed in step 2.

MICROWAVE OVEN LIGHT
Remove the louver per instructions 1-3 above and charcoal filter, if used.
1. To replace light bulb, first disconnect power to the microwave oven at the circuit breaker panel or by unplugging.
2. Open light cover located behind filter mounting by carefully pulling up on the front edge.
3. Remove old light bulb and replace only with equivalent watt bulb available from parts distributor. Bulbs are also available at most hardware stores or lighting centers. DO NOT USE BULB LARGER THAN 20 WATTS.
4. Replace the microwave oven light cover by carefully pushing into place. Replace the charcoal filter, if used. Push the louver back into place (engaging both the bottom and top tabs) and replace the louver mounting screw.

WORK LIGHT AND NIGHT LIGHT
1. To replace light bulbs, first disconnect power to the microwave oven at the circuit breaker panel or by unplugging.
2. Open light cover located behind filter mounting by carefully pulling up on the front edge. (See illustration.)
3. Replace light bulbs with equivalent watt bulb available from parts distributor. Bulbs are also available at most hardware stores or lighting centers. DO NOT USE BULB LARGER THAN 20 WATTS.

CAUTION
Light Cover may become very hot. Do not press glass when light is on.
SERVICE CALL CHECK

Please check the following before calling for service:
Place one cup of water in a glass measuring cup in the microwave oven and close the door securely.
Operate the microwave oven for one minute at HIGH 100%.

A  Does the microwave oven light come on?  YES  NO
B  Does the cooling fan work? (Put your hand on the louver above the Interactive Display.)  YES  NO
C  Does the turntable rotate? (It is normal for the turntable to turn in either direction.)  YES  NO
D  Is the water in the microwave oven warm?  YES  NO

If "NO" is the answer to any of the above questions, please check electrical outlet, fuse and/or circuit breaker. If they are functioning properly, CONTACT YOUR NEAREST ELECTROLUX AUTHORIZED SERVICE CENTER.

A microwave oven should never be serviced by a "do-it-yourself" repair person.

NOTES

1. If time appearing in the display is counting down very rapidly, check Demonstration Mode on page 22 and cancel.
2. If the oven is set for more than 40 minutes at 80, 90 or 100 percent power level, after the first 40 minutes the power level will automatically adjust itself to 70 percent power to avoid overcooking.

MAJOR APPLIANCE WARRANTY INFORMATION

Your appliance is covered by a one year limited warranty. For one year from your original date of purchase, Electrolux will pay all costs for repairing or replacing any parts of this appliance that prove to be defective in materials or workmanship when such appliance is installed, used and maintained in accordance with the provided instructions.

Exclusions

This warranty does not cover the following:

1. Products with original serial numbers that have been removed, altered or cannot be readily determined.
2. Product that has been transferred from its original owner to another party or removed outside the USA or Canada.
3. Rust on the interior or exterior of the unit.
4. Products purchased “as-is” are not covered by this warranty.
5. Food loss due to any refrigerator or freezer failures.
6. Products used in a commercial setting.
7. Service calls which do not involve malfunction or defects in materials or workmanship, or for appliances not in ordinary household use or used other than in accordance with the provided instructions.
8. Service calls to correct the installation of your appliance or to instruct you how to use your appliance.
9. Expenses for making the appliance accessible for servicing, such as removal of trim, cupboards, shelves, etc., which are not a part of the appliance when it is shipped from the factory.
10. Service calls to repair or replace appliance light bulbs, air filters, water filters, other consumables, or knobs, handles, or other cosmetic parts.
11. Surcharges including, but not limited to, any after hour, weekend, or holiday service calls, tolls, ferry trip charges, or mileage expense for service calls to remote areas, including the state of Alaska.
12. Damages caused by: services performed by unauthorized service companies; use of parts other than genuine Electrolux parts or parts obtained from persons other than authorized service companies; or external causes such as abuse, misuse, inadequate power supply, accidents, fires, or acts of God.

DISCLAIMER OF IMPLIED WARRANTIES; LIMITATION OF REMEDIES

CUSTOMER’S SOLE AND EXCLUSIVE REMEDY UNDER THIS LIMITED WARRANTY SHALL BE PRODUCT REPAIR OR REPLACEMENT AS PROVIDED HEREIN. CLAIMS BASED ON IMPLIED WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO ONE YEAR OR THE SHORTEST PERIOD ALLOWED BY LAW, BUT NOT LESS THAN ONE YEAR. ELECTROLUX SHALL NOT BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES SUCH AS PROPERTY DAMAGE AND INCIDENTAL EXPENSES RESULTING FROM ANY BREACH OF THIS WRITTEN LIMITED WARRANTY OR ANY IMPLIED WARRANTY. SOME STATES AND PROVINCES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, OR LIMITATIONS ON THE DURATION OF IMPLIED WARRANTIES, SO THESE LIMITATIONS OR EXCLUSIONS MAY NOT APPLY TO YOU. THIS WRITTEN WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS. YOU MAY ALSO HAVE OTHER RIGHTS THAT VARY FROM STATE TO STATE.

If You Need Service

Keep your receipt, delivery slip, or some other appropriate payment record to establish the warranty period should service be required. If service is performed, it is in your best interest to obtain and keep all receipts. Service under this warranty must be obtained by contacting Electrolux at the addresses or phone numbers below.

This warranty only applies in the USA and Canada. In the USA, your appliance is warranted by Electrolux Major Appliances North America, a division of Electrolux Home Products, Inc. In Canada, your appliance is warranted by Electrolux Canada Corp. Electrolux authorizes no person to change or add to any obligations under this warranty. Obligations for service and parts under this warranty must be performed by Electrolux or an authorized service company. Product features or specifications as described or illustrated are subject to change without notice.
