IMPORTANT SAFETY INSTRUCTIONS

WARNING
Please read all instructions before using this dryer.

Recognize safety symbols, words and labels
Safety items throughout this manual are labeled with a WARNING or CAUTION based on the risk type as described below:

Definitions
⚠️ This is the safety alert symbol. It is used to alert you to potential personal injury hazards. Obey all safety messages that follow this symbol to avoid possible injury or death.

DANGER
DANGER indicates an imminently hazardous situation which, if not avoided, will result in death or serious injury.

WARNING
WARNING indicates a potentially hazardous situation which, if not avoided, could result in death or serious injury.

CAUTION
CAUTION indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injury.

IMPORTANT
IMPORTANT indicates installation, operation or maintenance information which is important but not hazard-related.

WARNING
For your safety the following information in this manual must be followed to minimize the risk of fire or explosion or to prevent property damage, personal injury or death.

Do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or any other appliance.

WHAT TO DO IF YOU SMELL GAS:
• Do not try to light any appliance.
• Do not touch any electrical switch; do not use any phone in your building.
• Clear the room, building or area of all occupants.
• Immediately call your gas supplier from a neighbor’s phone. Follow the gas supplier’s instructions.
• If you cannot reach your gas supplier, call the fire department.

Installation and service must be performed by a qualified installer, service agency or the gas supplier.

Read all instructions before using this appliance. This book contains valuable information about:
• Operation
• Care
• Service

Keep it in a safe place.

This Use and Care Guide provides general operating instructions for your dryer. It also contains information about features for several other models. Your dryer may not have every feature included.

Use the dryer only as instructed in this Use & Care Guide.

Save these instructions for future reference.

Product Record

Record Your Model and Serial Numbers
The model and serial numbers of your dryer are found on the dryer serial plate located at the top of the door opening. Record and retain these numbers.

Model Number ___________________
Serial Number ___________________
Purchase Date ___________________
IMPORTANT SAFETY INSTRUCTIONS

Avoid fire hazard or electrical shock. Do not use an adaptor plug or extension cord or remove grounding prong from electrical power cord. Failure to follow this warning can cause serious injury, fire or death.

**WARNING**

To reduce the risk of fire, electrical shock, or injury to persons when using this dryer, comply with the basic warnings listed below. Failure to comply with these warnings could result in serious personal injuries. You can be killed or seriously injured if you don’t follow these Important Safety Instructions:

**PREVENT FIRE**

- Do not dry items that have been previously cleaned in, soaked in, or spotted with gasoline, cleaning solvents, kerosene, waxes, etc. Do not store these items on or near the dryer. These substances give off vapors that could ignite or explode.
- Do not place items exposed to cooking oils in your dryer. Items contaminated with cooking oils may contribute to a chemical reaction that could cause a load to catch fire.
- Do not dry articles containing rubber, plastic or similar materials such as bras, galoshes, bath mats, rugs, bibs, baby pants, plastic bags and pillows that may melt or burn. Some rubber materials, when heated, can under certain circumstances produce fire by spontaneous combustion.
- Clean the lint screen before or after each load. The interior of the dryer, lint screen housing and exhaust duct should be cleaned approximately every 18 months by qualified service personnel. An excessive amount of lint build-up in these areas could result in inefficient drying and possible fire. See Care and Cleaning.
- Do not operate the dryer if the lint screen is blocked, damaged or missing. Fire hazard, overheating and damage to fabrics can occur.
- Do not obstruct the flow of ventilating air. Do not stack or place laundry or throw rugs against the front or back of the dryer.
- Do not spray any type of aerosol into, on or near dryer at any time.
- Do not use fabric softeners or products to eliminate static unless recommended by the manufacturer of the fabric softener or product.
- Do not continue to use the dryer is you hear squeaking, grinding, rubbing or other unusual noises. This could be a sign of mechanical breakdown and lead to fire or serious injury. Contact a qualified technician immediately.
- Failure to comply with these warnings could result in fire, explosion, serious bodily injury and/or damage to the rubber or plastic parts of the dryer.

**WARNING**

**FIRE HAZARD**

A clothes dryer produces combustible lint. The dryer must be connected to an outdoors exhaust. Regularly inspect the outdoor exhaust opening and remove any accumulation of lint around the opening and in the surrounding area.
**IMPORTANT SAFETY INSTRUCTIONS**

**PROTECT CHILDREN**
- Do not allow children to play on or in the dryer. Close supervision of children is necessary when the dryer is used near children. As children grow, teach them the proper, safe use of all appliances.
- Destroy the carton, plastic bag and other packing materials after the dryer is unpacked. Children might use them for play. Cartons covered with rugs, bedspreads or plastic sheets can become airtight chambers.
- Keep laundry products out of children’s reach. To prevent personal injury, observe all warnings on product labels.
- Before the dryer is removed from service or discarded, remove the dryer door to prevent accidental entrapment. Failure to comply with these warnings could result in serious personal injuries.

**PREVENT INJURY**
- To prevent shock hazard and assure stability during operation, the dryer must be installed and electrically grounded by a qualified service person in accordance with local codes. Installation instructions are packed in the dryer for the installer’s reference. Refer to INSTALLATION INSTRUCTIONS for detailed grounding procedures. If the dryer is moved to a new location, have it checked and reinstalled by a qualified service person.
- To prevent personal injury or damage to the dryer, the electrical power cord of a gas dryer must be plugged into a properly grounded and polarized 3-prong outlet. The third grounding prong must never be removed. Never ground the dryer to a gas pipe. Do not use an extension cord or an adaptor plug.
- ALWAYS disconnect the dryer from the electrical supply before attempting any service or cleaning. Failure to do so can result in electrical shock or injury.
- Do not use any type spray cleanser when cleaning dryer interior. Hazardous fumes or electrical shock could occur.
- To prevent injury, do not reach into the dryer if the drum is moving. Wait until the dryer has stopped completely before reaching into the drum.

**PREVENT INJURY AND DAMAGE TO THE DRYER**
- All repairs and servicing must be performed by an authorized servicer unless specifically recommended in this Owner’s Guide. Use only authorized factory parts.
- Do not tamper with controls.
- Do not install or store the dryer where it will be exposed to the weather.
- A thermal limiter switch automatically turns off the motor in the unlikely event of an overheated situation (electric dryers only). A service technician must replace the thermal limiter switch after correcting the fault.
- Failure to comply with these warnings could result in serious personal injuries.

**CAUTION**
The California Safe Drinking Water and Toxic Enforcement Act requires the Governor of California to publish a list of substances known to the state to cause cancer, birth defects or other reproductive harm, and requires businesses to warn customer of potential exposure to such substances. Included in this list are soot and carbon monoxide, both of which may be produced by the use of this product.

**NOTE**
The instructions appearing in this Use and Care Guide are not meant to cover every possible condition and situation that may occur. Common sense and caution must be practiced when installing, operating and maintaining any appliance.
OPERATING INSTRUCTIONS

Operating Your Dryer

**WARNING**
To reduce the risk of fire, electric shock or injury to persons, read the IMPORTANT SAFETY INSTRUCTIONS in this Use and Care Guide before operating your dryer.

1. **Prepare load for drying.**
   - Dry items of similar fabric, weight and construction in the same load.
   - Separate dark items from light-colored items. Separate items that shed lint from those that attract lint.
   - Check for stains which may not have been removed in washing. Repeat stain removal process and wash again before drying. Dryer heat may permanently set some stains.
   - Place delicate or small items in a mesh bag.
   - Be sure buckles, buttons and trim are heatproof and won’t damage the drum finish. Close zippers, button buttons, fasten hooks and Velcro*-like fasteners. Tie strings and sashes to prevent snagging and tangling.

2. **Check that the lint filter is clean and in place.**

3. **Load the dryer and close the door.**
   - Load items loosely. The average wet load will fill the drum 1/3 to 1/2 full. Items need room to tumble freely for even drying and less wrinkling.
   - If desired, place a dryer fabric softener sheet on top of the load at the beginning of the cycle.
   - To save energy and time and avoid uneven drying and wrinkling, do not overload the dryer.
   - When drying large items, dry only two or three items at a time. Fill out the load with small and medium sized items.
   - For delicate or very small loads, add two or three similar items to improve tumbler action.

4. **Select the appropriate cycle and settings for each load.**

   - Turn the cycle selector knob in either direction to select the cycle desired.
   - A suitable dryness level and options will automatically be indicated for the cycle selected. See the **Dryer Settings Chart** for more details.
   - To change the settings, rotate the **temp** knob and press the **dryness** and **options** buttons to scroll to the desired settings.
   - To select or delete an option, press **options**, then, while the indicator is blinking, press **select**. The indicator will light when the option has been selected. It will no longer be lighted when the option has been deleted.

   **NOTE**
   To provide the best care for your laundry, not every setting or option is available with every cycle. If a setting or option is not available for the cycle selected, the indicator will not light.

   - Adjustments made to a cycle will be remembered and recalled each time that cycle is selected in the future.
   - To return to factory settings, press the **pause/cancel** and **select** buttons at the same time and hold until the signal sounds.

5. **Start the cycle.**
   - To add or remove items when the dryer is running, open the door. The dryer will stop when the door is opened. Allow the drum to come to a complete stop before reaching inside.
   - Close the door and press Start to resume the cycle.

6. **When the cycle ends, remove items immediately and hang or fold.**

   **IMPORTANT**
   Clean the lint filter after every load.

---

(Mesh bag not included.)
OPERATING INSTRUCTIONS

This manual covers many models and not all cycles, options, or features listed are available on every model. Console shown above for reference only. Your model may differ.

**Cycle Selection**

Turn the cycle selector in either direction to the cycle desired.

**For best results**

Follow the fabric care label instructions on items to be dried.

To change the cycle once it has begun, press the pause/cancel button twice before selecting a new cycle. Just turning the cycle selector knob to another selection will not change the cycle. If the selection is changed after the cycle starts, the indicator lights will blink, and the signal will beep. The signal will beep and the status lights will flash, but the original cycle will continue.

**Auto Dry Cycles**

Auto Dry cycles take the guesswork out of selecting the correct drying time for each load. Moisture sensing bars at the back of the dryer drum sense the moisture level of the load as it tumbles through the heated air. With Auto Dry cycles, the load will automatically be dried at the selected temperature to the desired dryness level. Auto Dry cycles save time and energy and protect fabrics.

When the load has reached the selected dryness level, it will continue to tumble during a cool down period. This helps reduce wrinkling and makes items easier to handle during unloading.

Drying time varies depending on size and dampness of load and fabric type. If the load is too small or almost dry, the moisture sensing bars may not detect enough moisture to continue the cycle and the cycle may end after a few minutes. If this occurs, select a Timed Dry cycle.

Room temperature and humidity, type of installation and electrical voltage or gas pressure can also affect drying time.

**towels**

Select this cycle to dry heavy loads such as towels and non-rubber-backed bath mats.

**normal**

Select this cycle to dry everyday fabrics including cottons, linens and sheets.

**casual**

Select this cycle to dry cottons, blends and permanent press items with a no-iron finish.

**delicates**

Select this cycle to dry knits and delicates.

**Timed Dry Cycles**

**WARNING**

**FIRE HAZARD**

To avoid fire hazard, do not use heat to dry items containing feathers or down, foam rubber, plastics similarly textured, rubber-like materials. Use a Timed Dry cycle and the air dry setting.

**touch up**

Select touch up to help remove wrinkles from clean and dry items that were not taken from the dryer at the end of the cycle, have been stored in crowded closets or drawers, or unpacked from luggage following a trip. It provides approximately 10 minutes of tumbling followed by a 5-minute cool down period.

**quick**

Select this timed cycle to quickly dry a small load made up of just a few items. It provides approximately 20 minutes of tumbling followed by a cool down period.

**timed dry**

To manually select the drying time for any load, turn the knob to a numbered setting. Drying times from 15 to 90 minutes are available in 15-minute increments. You will not be able to select a dryness level.
Cycle Settings

For best results
Follow the fabric care label instructions on items to be dried.

Appropriate dryness level and options will automatically be displayed for each cycle. The settings can be changed before the cycle is started.

If changes are attempted after the cycle starts, the lights will blink and the signal will beep.

Drying Temperature
Turn the temp knob until the desired drying temperature is selected. If the drying temperature is not appropriate for that cycle, the status lights will blink and the signal will beep 3 times. To protect your fabrics, not all temperatures are available with every cycle.

To change the temperature once the cycle has begun, press the pause/cancel button once, make the new selection and press START again.

NOTE
Select the normal dryness level for most Auto Dry cycles. Occasionally a load may seem too damp or over-dried at the end of the cycle. To increase drying time for similar loads in the future, select high. For loads requiring less drying time, select low.

Select damp for items you wish to partially dry before hanging or ironing.

Options
To select an option, press options until the indicator for the desired option flashes, then press select. If an option is not available for a cycle, the indicator will not light. Follow the same steps to delete an option.

Dryness Level (Auto Dry)
To change the preset level, press the dryness button to scroll to the degree of dryness desired.

To protect your fabrics, not all dryness levels are available with every cycle. If a dryness level is not appropriate for the cycle, it cannot be selected.

The dryness level selected for the cycle will be remembered and recalled each time that cycle is selected in the future. To return to factory settings, press the pause/cancel and select buttons at the same time and hold until the signal sounds.

**OPERATING INSTRUCTIONS**

**Other Features**

**Drying Rack (on select models)**
Use the drying rack for items which should not be tumble dried. Insert the rack into the dryer drum, resting the back support on the moisture sensor bars and the front legs on the air grill.

Place items to be dried on top of the rack, leaving space between items and not allowing them to hang over the sides or through the holes. The weight should not exceed 10 lbs (4.5 kg). Select the air dry (no heat) setting for items containing plastic, foam rubber, rubber-like materials, feathers or down.

When items are dry, remove the rack and store it in a convenient location.

---

**NOTE**
If your model did not come supplied from the factory with a drying rack you may order one.

---

**Control Lock**
To avoid having someone accidentally start the dryer, press **options** and **select** at the same time and hold for 10 seconds until the 🔄 **control** indicator lights up. To unlock the controls, press options and select at the same time and hold 10 seconds until the 🔄 **control** indicator is no longer lit.

---

**Status Lights**
The following indicators may be lighted during the cycle:
- drying
- cool down
- wrinkle release
- clean lint filter
- control 🔄

---

**Drum Light**
The drum light will come on whenever the door is opened to illuminate the drum during loading and unloading. Closing the door turns off the light.

---

**Reversible Door**
Your dryer is equipped with a reversible door. The door can be hinged on the right or left side.

---

**NOTE**
For step-by-step instructions on DOOR REVERSAL, refer to the **Installation Instructions** supplied with this dryer.
**CARE AND CLEANING**

**WARNING**

**FIRE HAZARD**
A clothes dryer produces combustible lint. The dryer must be connected to an outdoors exhaust. Regularly inspect the outdoor exhaust opening and remove any accumulation of lint around the opening and in the surrounding area.

**IMPORTANT**

Clean the lint filter after every load.

Before cleaning the dryer interior, unplug the electrical power cord to avoid electrical shock hazards.

Do not use any type spray cleanser when cleaning the dryer interior. Hazardous fumes or electrical shock could occur.

**INSIDE**

- Clean the lint filter after every load. Lint build-up on the filter restricts air flow, which causes longer drying times. The filter is located at the bottom of the door opening. Remove by pulling straight up. Remove the lint and replace the filter.
- Occasionally a waxy build-up may form on the lint filter and/or moisture sensing bars from using dryer-added fabric softener sheets. To remove this build-up, wash them with warm, soapy water. Dry the filter thoroughly and replace. Do not operate the dryer without the lint filter in place.
- If the dryer drum becomes stained from noncolorfast fabrics, clean the drum with a damp cloth and a mild liquid household cleanser. Remove cleanser residue before drying the next load.
- Every 18 months an authorized servicer should clean the dryer cabinet interior and exhaust duct. These areas can collect lint and dust over time. An excessive amount of lint build-up could result in inefficient drying and possible fire hazard.

**OUTSIDE**

- Clean the cabinet with mild soap and water. Never use harsh, gritty or abrasive cleansers.
- If the cabinet becomes stained, clean with diluted chlorine bleach (1 part bleach to 8 parts water). Rinse several times with clear water.
- Remove glue residue from tape or labels with a mixture of warm water and mild detergent. Or, touch residue with the sticky side of the tape or label.
- When cleaning chrome parts use a window cleaner with ammonia or mild soap and water.
- Before moving the dryer, place a strip of cardboard or thin fiberboard under the front leveling legs to prevent damage to the floor.

**WARNING**

To reduce risk of fire or serious injury to persons or property, comply with the basic warnings listed in the Important Safety Instructions and those listed below.

- Before cleaning the dryer interior, unplug the electrical power cord to avoid electrical shock hazards.
- Do not use any type spray cleanser when cleaning the dryer interior. Hazardous fumes or electrical shock could occur.

**IMPORTANT**

Do not store or place laundry products on top of dryer at any time. They can damage the finish or controls.
## Common Drying Problems

Many drying problems involve poor cleaning results, poor soil and stain removal, residues of lint and scum, and fabric damage. For satisfactory drying results, follow these suggestions provided by The Soap and Detergent Association.

<table>
<thead>
<tr>
<th>PROBLEM</th>
<th>POSSIBLE CAUSES</th>
<th>SOLUTIONS</th>
<th>PREVENTIVE MEASURES</th>
</tr>
</thead>
<tbody>
<tr>
<td>Greasy, oily stains</td>
<td>• Fabric softener sheet.</td>
<td>• Rub fabric softener stains with bar soap. Rinse and rewash.</td>
<td>• Add a few bath towels to small loads for proper tumbling.</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>• Some “silk-like” fabrics should be air dried.</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>• Use proper drying temperature.</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>• Place fabric softener sheet on top of load before starting the dryer.</td>
</tr>
<tr>
<td>Lint</td>
<td>• Overloading.</td>
<td>• Reduce load size and rewash using liquid fabric softener in the final rinse.</td>
<td>• Do not overload dryer.</td>
</tr>
<tr>
<td></td>
<td>• Overdrying causes static electricity.</td>
<td>• Or, add a fabric softener sheet and tumble without heat.</td>
<td>• Use fabric softener in washer or dryer to reduce static electricity.</td>
</tr>
<tr>
<td></td>
<td>• Lint screen not clean when cycle began.</td>
<td>• Use lint brush or roller to remove lint.</td>
<td>• Remove items when they are slightly damp to avoid overdrying.</td>
</tr>
<tr>
<td></td>
<td>• Lint is attached to “ pills. ”</td>
<td></td>
<td>• Check that lint filter is clean and in place.</td>
</tr>
<tr>
<td>Pilling (Fibers break off, ball up and cling to fabric.)</td>
<td>• Overdrying.</td>
<td>• Use a lint brush or shaver to remove pills.</td>
<td>• Use fabric softener to lubricate fibers.</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>• When ironing, use spray starch or fabric finish on collars and cuffs.</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>• Turn items inside out to reduce abrasion.</td>
</tr>
<tr>
<td>Shrinking</td>
<td>• Temperature too high.</td>
<td>• Irreversible condition.</td>
<td>• Follow fabric care label directions.</td>
</tr>
<tr>
<td></td>
<td>• Overdrying.</td>
<td></td>
<td>• If shrinking is a concern, check load often.</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>• Remove items while slightly damp and hang or lay flat to complete drying.</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>• Block knits into shape.</td>
</tr>
<tr>
<td>Wrinkling</td>
<td>• Overloading.</td>
<td>• Reduce load size and tumble at medium or low heat for 5-10 minutes.</td>
<td>• Do not overload dryer.</td>
</tr>
<tr>
<td></td>
<td>• Leaving items in dryer after cycle ends.</td>
<td>• Remove items immediately. Hang or fold.</td>
<td>• Remove items as soon as cycle ends.</td>
</tr>
</tbody>
</table>
**SOLUTIONS TO COMMON PROBLEMS**

**Avoid Service Checklist**

Before calling for service, review this list. It may save both time and expense. The list includes common occurrences that are not the result of defective workmanship or materials in this dryer.

<table>
<thead>
<tr>
<th>OCCURRENCE</th>
<th>POSSIBLE CAUSE</th>
<th>SOLUTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dryer does not start.</td>
<td>Electrical power cord is not securely plugged in or plug may be loose.</td>
<td>Make sure the plug fits tightly in wall outlet.</td>
</tr>
<tr>
<td></td>
<td>House fuse blown or circuit breaker tripped.</td>
<td>Reset circuit breaker or replace fuse.</td>
</tr>
<tr>
<td></td>
<td>Thermal limiter tripped.</td>
<td>Make sure electrical line is not overloaded and the dryer is on a separate circuit.</td>
</tr>
<tr>
<td>Dryer runs but won't heat.</td>
<td>There are 2 house fuses in the dryer circuit. If 1 of the 2 fuses is blown, the drum may turn but the heater will not operate. (electric models)</td>
<td>Replace fuse.</td>
</tr>
<tr>
<td></td>
<td>Gas supply valve is not open (gas models).</td>
<td>Check to make sure supply valve is open. See INSTALLATION INSTRUCTIONS for procedure.</td>
</tr>
<tr>
<td></td>
<td>Dryer does not have enough air supply to support the burner flame (gas models).</td>
<td>See INSTALLATION INSTRUCTIONS.</td>
</tr>
<tr>
<td></td>
<td>LP gas supply tank is empty or there has been a utility interruption of natural gas (gas models).</td>
<td>Refill or replace tank.</td>
</tr>
<tr>
<td></td>
<td>Drying cycle takes too long, outside of the dryer feels too hot or smells hot.</td>
<td>Dryer should heat when utility service is restored.</td>
</tr>
<tr>
<td></td>
<td>Lint filter is clogged with lint.</td>
<td>Make sure all lint has been removed from the dryer lint filter before starting each cycle.</td>
</tr>
<tr>
<td></td>
<td>Exhaust duct requirements have not been met.</td>
<td>Exhaust duct must be at least 4 inches in diameter and made of rigid or semi-rigid metal. When in place, the duct must have no more than four 90° bends and must not exceed length listed in INSTALLATION INSTRUCTIONS.</td>
</tr>
<tr>
<td></td>
<td>Electric dryer is connected to a 208 volt circuit.</td>
<td>Drying time will be 20% longer than drying on a 240 volt circuit.</td>
</tr>
<tr>
<td></td>
<td>Drying procedures have not been followed.</td>
<td>See “Operating Instructions.”</td>
</tr>
<tr>
<td></td>
<td>Outside exhaust hood or exhaust duct may be clogged or restricted.</td>
<td>Clean out any obstruction.</td>
</tr>
<tr>
<td></td>
<td>High humidity.</td>
<td>Use a dehumidifier near the dryer.</td>
</tr>
<tr>
<td>Excessive wrinkling.</td>
<td>Dryer is overloaded.</td>
<td>Do not overload. See “Operating Instructions.”</td>
</tr>
<tr>
<td></td>
<td>Items left in dryer too long.</td>
<td>Remove items as soon as cycle ends.</td>
</tr>
<tr>
<td></td>
<td>Insufficient sorting of items.</td>
<td>See “Operating Instructions.”</td>
</tr>
<tr>
<td></td>
<td>Drying temperature too high.</td>
<td>Follow fabric care label instructions.</td>
</tr>
<tr>
<td>Scratching or chipping of the drum finish.</td>
<td>Foreign objects such as coins, pins, clips or buttons are inside the dryer.*</td>
<td>Always remove foreign objects from pockets before laundering. Remove objects from drum and restart dryer.</td>
</tr>
<tr>
<td></td>
<td>Permanently attached items such as belt buckles, zippers and fasteners may be hitting the inside of the drum.*</td>
<td>It may be necessary to sew a scrap of material securely around ornaments before drying to prevent scratching and damage to the dryer.</td>
</tr>
</tbody>
</table>

*Drum damage caused by foreign objects or permanently attached items is not covered by the warranty.
Your appliance is covered by a one year limited warranty. For one year from your original date of purchase, Electrolux will pay all costs for repairing or replacing any parts of this appliance that prove to be defective in materials or workmanship when such appliance is installed, used and maintained in accordance with the provided instructions.

Exclusions

This warranty does not cover the following:
1. Products with original serial numbers that have been removed, altered or cannot be readily determined.
2. Product that has been transferred from its original owner to another party or removed outside the USA or Canada.
3. Rust on the interior or exterior of the unit.
4. Products purchased "as-is" are not covered by this warranty.
5. Food loss due to any refrigerator or freezer failures.
6. Products used in a commercial setting.
7. Service calls which do not involve malfunction or defects in materials or workmanship, or for appliances not in ordinary household use or used other than in accordance with the provided instructions.
8. Service calls to correct the installation of your appliance or to instruct you how to use your appliance.
9. Expenses for making the appliance accessible for servicing, such as removal of trim, cupboards, shelves, etc., which are not a part of the appliance when it is shipped from the factory.
10. Service calls to repair or replace appliance light bulbs, air filters, water filters, other consumables, or knobs, handles, or other cosmetic parts.
11. Surcharges including, but not limited to, any after hour, weekend, or holiday service calls, tolls, ferry trip charges, or mileage expense for service calls to remote areas, including the state of Alaska.
12. Damages to the finish of appliance or home incurred during installation, including but not limited to floors, cabinets, walls, etc.
13. Damages caused by: services performed by unauthorized service companies; use of parts other than genuine Electrolux parts or parts obtained from persons other than authorized service companies; or external causes such as abuse, misuse, inadequate power supply, accidents, fires, or acts of God.

DISCLAIMER OF IMPLIED WARRANTIES; LIMITATION OF REMEDIES

CUSTOMER'S SOLE AND EXCLUSIVE REMEDY UNDER THIS LIMITED WARRANTY SHALL BE PRODUCT REPAIR OR REPLACEMENT AS PROVIDED HEREIN. CLAIMS BASED ON IMPLIED WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO ONE YEAR OR THE SHORTEST PERIOD ALLOWED BY LAW, BUT NOT LESS THAN ONE YEAR. ELECTROLUX SHALL NOT BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES SUCH AS PROPERTY DAMAGE AND INCIDENTAL EXPENSES RESULTING FROM ANY BREACH OF THIS WRITTEN LIMITED WARRANTY OR ANY IMPLIED WARRANTY. SOME STATES AND PROVINCES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, OR LIMITATIONS ON THE DURATION OF IMPLIED WARRANTIES, SO THESE LIMITATIONS OR EXCLUSIONS MAY NOT APPLY TO YOU. THIS WRITTEN WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS. YOU MAY ALSO HAVE OTHER RIGHTS THAT VARY FROM STATE TO STATE.

If You Need Service

Keep your receipt, delivery slip, or some other appropriate payment record to establish the warranty period should service be required. If service is performed, it is in your best interest to obtain and keep all receipts. Service under this warranty must be obtained by contacting Electrolux at the addresses or phone numbers below.

This warranty only applies in the USA and Canada. In the USA, your appliance is warranted by Electrolux Major Appliances North America, a division of Electrolux Home Products, Inc. In Canada, your appliance is warranted by Electrolux Canada Corp. Electrolux authorizes no person to change or add to any obligations under this warranty. Obligations for service and parts under this warranty must be performed by Electrolux or an authorized service company. Product features or specifications as described or illustrated are subject to change without notice.
